Our Special Business Package Includes:

Guidance & Consultation

Accounting, taxes and business decisions! As your CFO, we serve as a valuable resource as you move your business forward, helping you through all of the difficult business decisions.

Tax Planning & Tax Preparation

Includes ongoing advice throughout the year, eliminating surprises and taking a proactive approach in tax planning, so you can take advantage of opportunities and avoid costly mistakes. Your end of year return is included.

Accounting & Record Keeping

We will provide a full range of record keeping support for your business. Current and accurate monthly financial statements will allow us to provide you with the most up-to-date picture of your business resulting in timely advice and guidance. Current and accurate financial information provides the foundation for business analysis and year round tax planning.
